3030 DELAWARE AVENUE - SIGNAGE

Bob Rine is the Applicant and owner of the business. It is a flat sign made of Alumaticore, which makes it sturdy and rigid. The sign is three feet by eight feet. The original sign is gone and there is nothing in the windows. Window signs are not being presented at this time.

Michael Foster stated that the sign is clean, but not very inspiring

Mr. Rine stated that there were budget concerns.

Sara Schumacher-Marks added that the minimum is forty square feet and she is at the maximum.

Mr. Foster suggested boxing the sign text, like a frame (like Mojo Market) and shrinking the letters to make the sign more appealing and attractive.

Robert Rumpl moved to approve with the revisions discussed (smaller lettering with a frame around the text) and contingent on the Building Inspector's approval.

Seconded by Michael Foster, and approved by all members in attendance.

OTHER BUSINESS

As there was no other business, the meeting was adjourned. The next meeting is scheduled for April 25, 2023 at 6:00 P.M.

Kathleen P. Johnson, Clerk/Treasurer
